## 8. Benefits in terms of learning/Skill/Knowledge obtained.

Often times, being innovative can be difficult. This intuitive approach has also helped them to take the mystery out of "how to think like an innovator". Though every day was focused on different aspects of innovation, each program has been designed to help individual them learn, develop and progress personally and professionally. This also helped students to nurture the knowledge base they had. This well planned session ensured that each individual had a deeper understanding of what their responsibilities and roles are, thereby helping them excel in their entrepreneurship skills.

After completion of the session both the students and faculty are aware with the need of IP and how to protect innovative ideas through IP. They also learned about copy rights, patents, publication of patents and granting of patents.

**Motivation and Interaction by an Early Stage Entrepreneur – Startup Founder  
T.Seetha Ram, Founder of Robogyan on 17<sup>th</sup> Feb, 2021**

**1. Objective of the Event:**

The main idea of the event is to create awareness on Entrepreneur, Startup, Benefits and problems associated with the StartUps. This also aims to motivate students as the founder of Robogyan is Alumni of KKR & KSR Institute of Technology and Sciences.

**2. About ROBOGYAAN:**

Robogyaan has a team of emerging engineers that knows insufficiency, requirements, and essential needs of the students, and have determined to undertake workshops in schools at their convenient timings to counsel and guide the young ones by explaining to them what they can do. Robogyaan offers comprehensive courses which are designed to provide training that's as streamlined and to-the-point as possible. Robogyaan was initiated with the motto of educating children on robotics and other exponential technologies. They haven't limited their services to the cities rather explored across the rural areas of Andhra Pradesh and Telangana. To do so, they got funding from NATS(North America Telugu Society), the US-Based Nonprofit organization working to create sustainability in Telugu states.

The mission is to leverage the engineering skills and motivate professionals interested in robotics and niche technologies. Robogyaan, is a platform that brings experts, technicians, and allied professionals together to solve social problems through constructive interventions of technology and youth mobilization. They want to build a potential organization that solves social problems and changes the way we live. And also they help students in rising spirits towards innovation, technology and entrepreneurship. They contribute themselves in a mission to 'Transform the Education' in India.

Recently, the team of Robogyan started mentoring children in ATAL tinkering labs which made us more unique. After corona pandemic situations we started working on PPE (personal protecting kits)

for doctors and contributed ourselves to society. Robogyaan also observed the problem at chicken stalls during weekends and resolved to make things digitalize and started an online chicken home delivery system. They were also working smart starters (mobile operated starter motors in farms) for farmers in collaboration with Kaanthi with the financial support, technical mentorship from IEEE.

### **Mentoring Session for Career planning and Entrepreneurship by Winston Paul, Master Trainer and Motivator on April 12<sup>th</sup> 2021**

#### **Objective of the Event:**

In recent decades, career development has seen a shift in the way it is approached. Traditionally, it was up to an organization to ensure that its students had the skills to meet the company's long-term goals. Now, however, students advocate that they are and should be responsible for their own career development. This shift has changed the way that organizations handle career development. Career development is viewed today as developing entrepreneurship skills.

#### **About the Chief Guest:**

Mr. WINSTON PAUL, Master Trainer and Motivator, Amphisoft Technologies, Coimbatore

Amphisoft Technologies is a next-generation global technology company that helps enterprises reimagine their businesses for the digital age. **Mr. Winston Paul & RAAJ**  
(KITS\_IIC) - KITS- Institution Innovation Council

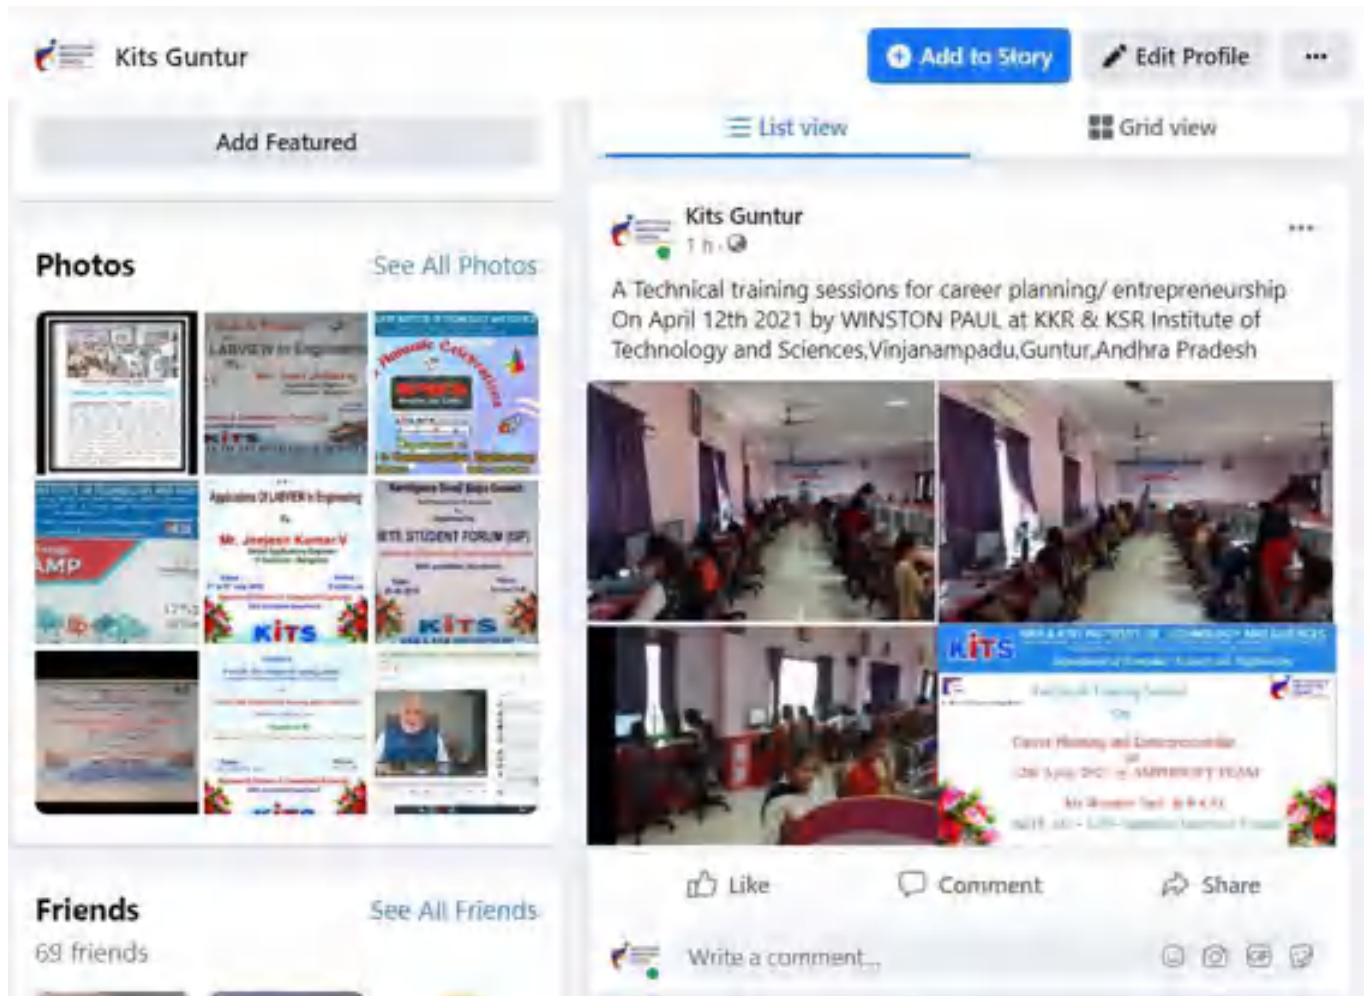

##### 5. Benefits in terms of learning/Skill/Knowledge obtained.

Technical training session for career planning helped students to build new skills and made them more efficient at handling different challenges. This also helped students to nurture the knowledge base they had. This well planned session ensured that each individual had a deeper understanding of what their responsibilities and roles are, thereby helping them excel in their entrepreneurship skills.

**E-Zavest - Mentoring Session on Acceleration/ Incubation / Business  
opportunities by Mr. Santosh Chaluvadi, CEO of Supraja technologies, an  
Entrepreneur  
on 8<sup>th</sup> February, 2021**

## **1. Objective of the Event:**

Entrepreneurship is the process involving the innovative use and combination of resources to explore and pursue opportunities through the creation. It focuses on developing real-world skills that will help students to lead. It is very useful to develop their imagination and learn how to apply creative thinking skills, to solve real, complex problems. The main idea of the session is to explore the Business or Incubation Opportunities both for the students and faculty.

## **2. About the Event:**

Santosh Chaluvadi educated the students by sharing his journey towards entrepreneurship. He shared his story with the students, where an average student like him is now amongst the top 5 in cyber security. He urged the students to be unique and not to give up until they succeed. He also shared about how he had to start from being a delivery boy and stated that everyone should be satisfied with their work, however big or small it is. He encouraged students to believe in themselves and to take risks in order to be different. According to him one should have a clear vision and ideas and also self-motivation is the key in order to achieve greater heights. By keeping himself motivated he achieved a place in limca book of world records after which he started getting recognized. He believes that one should focus on solving the problem statement they observed. He concluded by stating everyone should find their own interest and focus on fulfilling it with concentration and motivation. 200 Members participated in this event.

## **3. Venue of the Event:**

The event is organized in KKR & KSR Institute of Technology and Sciences,  
Vinjanampadu, Guntur, Andhra Pradesh in association with IIC-MHRD.

**5. Date & Time of the Event:** The Event is organized on **8<sup>th</sup> February 2021**

## 7. About Chief Guest:

### **Santosh Chaluvadi**

He is a 27-year-old entrepreneur, one of the India's efficient Cyber Security Analyst and also, he is an expert Digital Marketer as well. He is a digital marketer by profession and security enthusiast by passion. He primarily focuses on content building, testing and monetization of blogs. He has successfully developed many websites and done the security testing himself to ensure that the user's data is in safe hands and their privacy is protected. He is very active on social media and shares lot of tech stuff with his followers. The young student hacker has solved many issues with the vulnerabilities present in various websites and databases, given a solution in clearing the loopholes in order to protect the data to be leaked from the databases. Besides Ethical Hacking & Cyber Security, he also has a passion in Blogging & Digital Marketing. While pursuing his engineering itself, he has trained many young generation people/students of more than 3500+ from various parts across Andhra Pradesh through his workshops, seminars, courses in Cyber Security and this makes him one of the youngest student trainers in India. At the age of 20 he conducted his first workshop on Blogging & Ethical Hacking which was the beginning to his success in this field and right now he has handful of workshops to train students, government and corporate organizations as well in Andhra Pradesh and Telangana. He is the only student trainer who started conducting workshop for his peers and professors. After working on R&D for around 2 years, finally in the mid 2019 he has successfully developed a service/solution of various techniques and strategies for the Film Industry through which he can kill piracy of any film in online up to 35% right now. This beta provision is being appreciated & adopted by various Tollywood Film Industry Producers & Hero's to safeguard their film from piracy in available and to gain more profits. By the end of 2022 his vision is to rollout a complete full packed service/solution where we can kill piracy entirely 100% everywhere in online for sure.

## 8. Benefits of the Session:

After Completion of the session the students are aware with the concepts of

- Entrepreneurship, Roles and Responsibilities of an Entrepreneur
- Acceleration / Incubation Opportunities both for the students and faculty.
- Life Experiences of an entrepreneur
- Funding Support by various organizations.

## 7. Benefits of the Program:

After completion of the Program both the students and faculty are aware

- About the World economy and the information age.
- About Ideas and concepts and how they can be protected.
- Importance of IP in Higher Education Institutions to protect student and faculty ideas.
- Role of Academia in promoting ideas protection and its social impact.
- Difference between copy right and IP.
- Correlation between Teaching and IP.
- About Research Management and Intellectual Property.
- Integration of Research management with IP.
