Faculty Interaction Report

DATE : 11th November 2016

EVENT : Faculty Interaction

TIME : 11.00 AM

VENUE : Communication Skills Lab, KITS Guntur

ORGANIZED BY: E.C.E Dept.

EVENT DESCRIPTION:

The ECE department conducted an “Interaction program” on “Research & Development in Engineer” on 11th, November, 2016 from 11.00 AM to 1.00 PM in the Communication Lab. **Prof.P. Siddaiah, Dean, College of Engineering, Acharya Nagarjuna University** was resource person for this interaction program. The motive of this interaction was to bring the awareness among the faculty members towards Research & Development.

SESSION ACTIVITIES:

As per the given instructions by the Dr. Siva Ganga Prasad, HOD ECE dept., the faculty incharges made proper arrangements for the program. At 11.00 AM faculty members and Heads of other departments entered into the Communication Lab The Program is started with opening remarks of Dr. Siva Ganga Prasad . Exactly at 11.10 AM the program is started by **Prof.P. Siddaiah, Dean, College of Engineering, Acharya Nagarjuna University**. The Resource person was given hands of experience on research and development.

Initially the resource person explained the student faculty relationship he explains the teaching field in a small sentence

“To the students, for the students, by the students”

Here are some tips given by the resource person

- Learn the name of each student as quickly as possible and use the student's name in class.
- Tell the students by what name and title you prefer to be called (Prof., Dr., Mr., Mrs., Miss, Ms,
- At the end of each class period, ask one student to stay for a minute to chat (compliment on Something: tell student you missed him/her if absent, etc.).

- Get feedback periodically from students
- Conduct a personal interview with all students sometime during the semester.

Later he insisted the faculty members to publish papers as much as possible. He explained that the published papers are real assets of a faculty.

The following topics explained by the resource person:

- What is research and development?
- The research and development includes what?
- How to do a quality research?

He gave a brief overview of the research activity is going on various things in India and abroad. Later he explained the process of obtaining funds for the projects. He shared his knowledge with the faculty members. Finally Guest is honored by the HOD.
