DAY-1-REPORT

Name of Event: Farmers Awareness on Plantation, Cultivation, Pesticides & Fertilization

Date of Event: 01-02-2024

Place of Event: Vinjanampadu

On 01-02-2024 Camp Inauguration

Special Camp inauguration was a significant event attended by several key persons including the Principal, Director, Panchayati Sarpanch and Panchayati officers. During the inauguration, the Principal likely emphasized the importance of community service and the role NSS plays in fostering social responsibility among students. The Director may have highlighted the objectives and expectations for the camp, stressing the need for active participation and meaningful contributions from the volunteers. The Panchayati Sarpanch probably underscored the local community's support for the initiative and encouraged collaboration between the NSS volunteers and the community members. The inauguration likely served to inspire and motivate the participants while setting the tone for a successful and impactful NSS Special Camp.

After The Camp inauguration as per event the scheduled National Service Scheme (NSS) organized a comprehensive Agriculture related campaign in Vinjanampadu with the aim to improve Plantations, cultivation, pesticides, fertilization.

In recent years, agricultural practices have undergone significant transformations due to technological advancements, climate change, and evolving consumer preferences. Among these changes, increasing awareness among farmers regarding plantation cultivation, pesticide usage, and fertilization has become paramount. This report aims to assess the current status of farmer awareness in these domains and suggest strategies for enhancement.

Current State of Farmer Awareness: Plantation Cultivation: Many farmers are familiar with traditional cultivation methods but may lack awareness of modern techniques such as precision farming, crop rotation, and intercropping.

Pesticides: Awareness of pesticide types, proper application methods, and potential environmental and health hazards varies widely among farmers. Some may rely heavily on chemical pesticides without considering alternatives or safety measures.

Fertilization: While most farmers understand the importance of fertilizers for soil fertility and crop yield, there is a need for greater knowledge regarding nutrient management, soil testing, and organic alternatives.

Challenges and Barriers: Limited Access to Information: Farmers in remote areas or with limited resources may struggle to access educational materials, workshops, or training programs.

National Service Scheme (NSS) Cell
JNTUK- SPECIAL CAMP | 01-2-2024 to 07-2-2024
Unit Code: 90214715

Economic Constraints:

Cost-effective alternatives to chemical pesticides and fertilizers may be perceived as financially burdensome or less effective, discouraging their adoption.

Cultural and Behavioral Factors: Traditional farming practices deeply rooted in cultural norms and beliefs may hinder the acceptance of modern techniques or sustainable alternatives. Strategies for Enhancement:

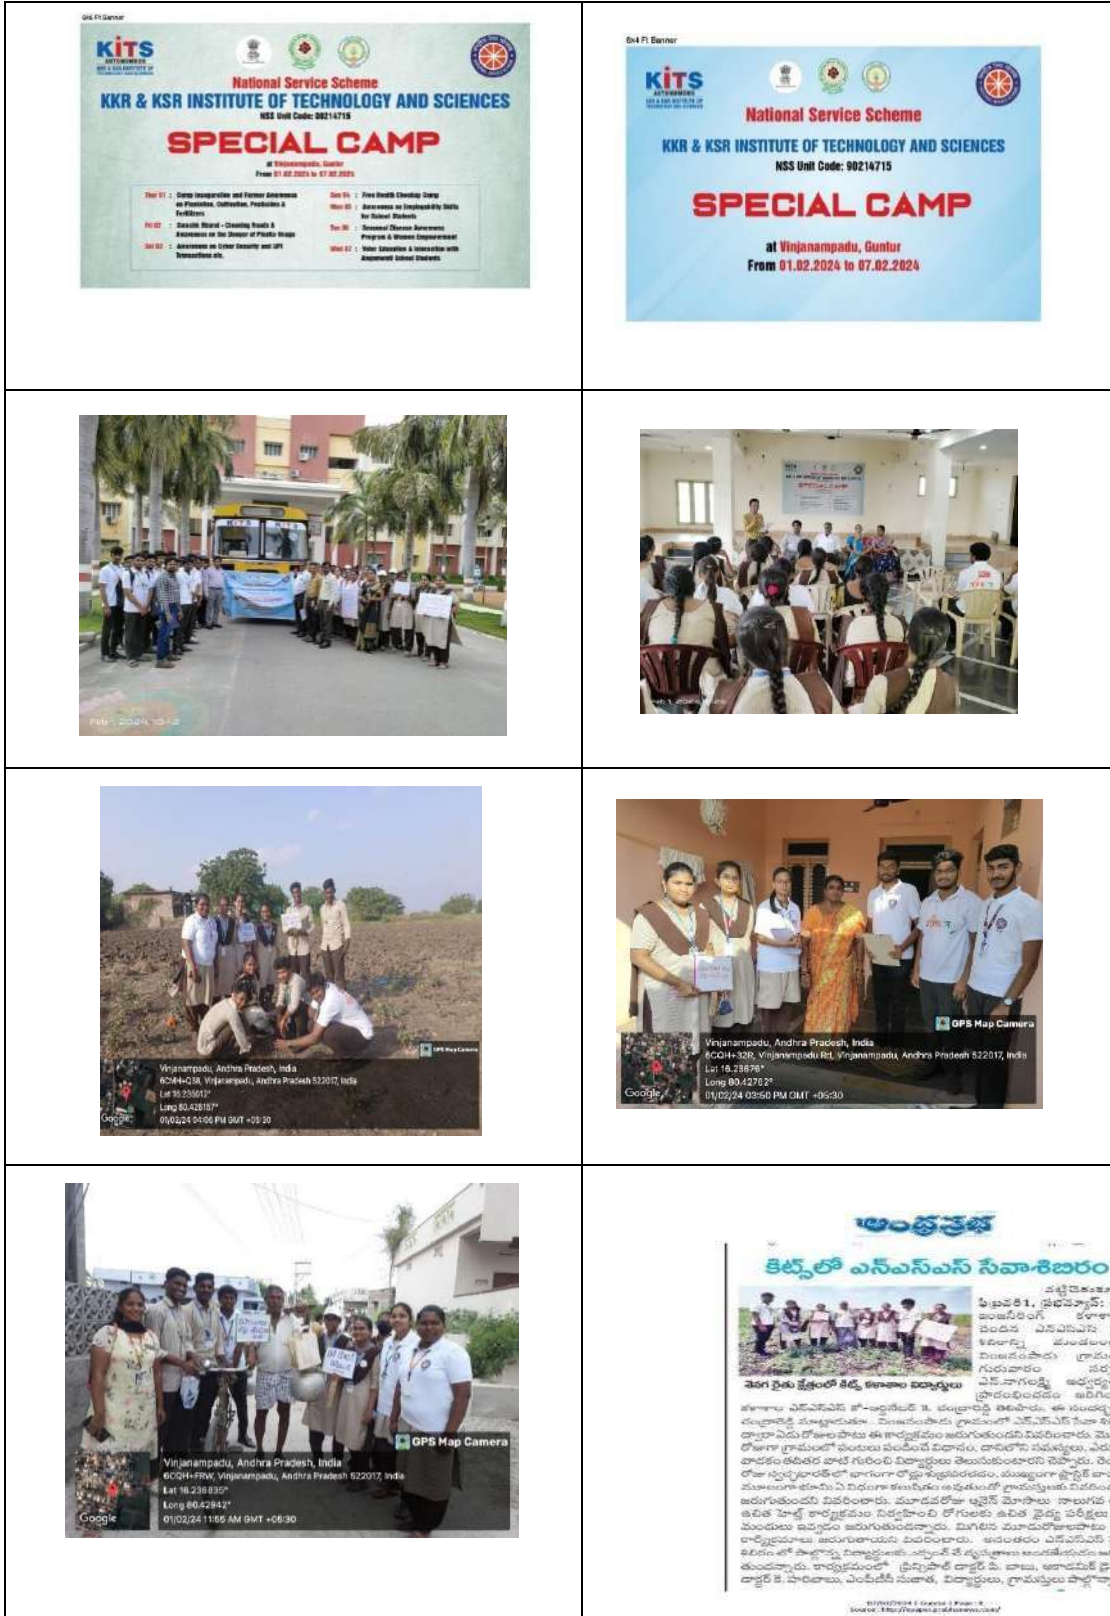

Educational Campaigns:

Government agencies, agricultural extension services, and NGOs can collaborate to organize workshops, seminars, and awareness campaigns targeting farmers at the grassroots level.

Knowledge Exchange Platforms: Establishing online forums, mobile applications, and community networks can facilitate knowledge sharing among farmers, extension workers, and agricultural experts.

DAY-2-REPORT

Name of Event: Swachh Bharat-Cleaning Roads& Awareness On Plastic Usage

Date of Event: 02-02-2024

Place of Event: **Vinjanampadu**

On 02-02-2024 The National Service Scheme (NSS) organized a comprehensive Swachh Bharath campaign in vinjanampadu with the aim to improve rural sanitation by adopting solid and liquid waste management operations and ensuring that villages are open defecation free.

The primary objective of this campaign was to educate the villagers on the swachh Bharath, the benefits of cleanliness of our surroundings and Elimination of plastic in our daily life. The NSS team encourages the people of village about the importance of clean surrounding, the Elimination of plastic and move towards the clean India.

NSS volunteers conducted interaction with every person of the village and explained the importance of cleanliness and the disadvantages and effects that are caused by the plastic and said the alternatives of plastic usages.

NSS volunteers engaged in door-to-door visits to address individual queries, provide information, and encouraged people in the village to keep their surroundings clean and green.

The Swachh Bharath and awareness on plastic usages campaign in vinjanampadu conducted by NSS proved to be a commendable effort in promoting rural sanitation and plastic usage to community to actively participate in the swachh Bharath and awareness on plastic usage.

The programme includes elimination of open defecation, conversion of unsanitary toilets to pour flush toilets, eradication of manual scavenging, municipal solid waste management and bringing about a behavioural change in people regarding healthy sanitation practices.

DAY-3-REPORT

Name of Event: Awareness on Cyber Security and UPI Transactions...Etc

Date of Event: 03-02-2024

Place of Event: Vinjanampadu

On 03-02-2024 The National Service Scheme (NSS) organized a campaign in " Vinjanampadu" village to bring awareness and enrich knowledge of village people by launching an effective program which mainly focuses on "CYBER SECURITY" that is beneficial and sometimes dangerous too in real time scenario.

The main objective of NSS initiative towards "CYBER SECURITY" is, to let people know about huge scams and frauds that are taking place these days. We engaged with village people in a friendly manner and explained about cyber criminals and malicious attacks that are taking place through real life examples with detailed information. NSS volunteers explained clearly about "Online Scammers" to the people. Online Scammers are those who talks nicely and takes personal information such as bank credentials from opposite people through blackmailing them like: "I WILL LEAK OUR PERSONAL CHATS etc. (which is commonly called as "Social Engineering")

We expound about 3 major types of hackers, so that village people can get some basic idea:

BLACK HAT HACKER – The one who performs illegal activities and crack systems.

WHITE HAT HACKER – The one who performs only ethical activities that are completely legal and ethical.

GAMING HACKER – The one who target online gamers and performs hacking.

BLUE HAT HACKER – These are kind of "REVENGE SEEKERS" who performs hacking for personal egos and revenges.

NSS volunteers explained people about basic types of cyber-attacks that are hugely taking place now-a-days, so that village people can be aware of such type of frauds:

PHISHING - It is an attack where an attacker sends the fake emails to people which includes:

EX: "YOU WON A LOTTERY AMOUNT OF \$20,000", PLEASE SEND YOUR ACCOUNT DETAILS TO WITHDRAW THE CASH PRICE.

National Service Scheme (NSS) Cell
JNTUK- SPECIAL CAMP | A.Y:2023-2024

Unit Code: 90214715

SPOOFING – It is an attack where an attacker performs hacking using voice changer apps and some resources, so that he can earn trust of opposite person (where opposite person believes it as a familiar voice and got call from a trusted source) and asks for personal and sensitive data, bank details etc.

With this program, NSS mainly encouraged village people to know about online scams and frauds in a very detailed manner with live examples.

The main objective of the NSS initiative towards “UPI TRANSACTIONS” is to let people know about Firstly, we wanted to show people in the village how to use UPI payments. Secondly, we aimed to explain why using UPI is beneficial. Thirdly, we were there to teach the locals how to do digital payments themselves. As NSS volunteers, we explained UPI payments in three simple steps which can easily be understood by the people in the village.

Teaching UPI Payments:

We spent time explaining how to use phones to send money instantly through UPI. We showed them how to download and use apps that help with these transactions. We explained each step in a clear and easy way, making sure everyone understood. From adding bank accounts to making payments securely, we made sure they were comfortable with the process.

Explaining Benefits of UPI:

We talked about why using UPI is a good idea. We highlighted its advantages, like how it lets you send money quickly to anyone, anytime, without needing to go to a bank. We also mentioned that it's safe and doesn't cost much for transactions. Overall, we wanted to show how UPI can make handling money simpler and more convenient for them.

Training on Digital Payments:

Beyond just UPI, we showed them other ways to handle money digitally. We introduced them to mobile wallets and online banking, explaining how these tools can also make their lives easier. We provided hands-on training, letting them try out these methods themselves. By the end, they were more confident in using various digital payment options for their day-to-day transactions.

As the NSS team, we felt happy knowing we helped the people in Vinjanampadu learn about UPI payments. Talking to them was great, and we think our work will make a difference in how they handle money. We're excited to keep helping them and see how they use digital payments in their lives.

DAY-4-REPORT

Name of Event: Free Health Checkup Camp

Date of Event: 04-02-2024

Place of Event: Vinjanampadu

On 04-02-2024, National Service Scheme (NSS) has organized Free Health Checkup Camp with association of Raja Sekhar Hospital Guntur & Hanuman Eye Clinic Guntur which aimed to provide essential healthcare services to the Vinjanampadu Village people.

The main Objective of NSS team is to provide Free health checkup services which include blood pressure (BP), blood sugar, and eyesight examinations, to the people in order to examine their status of the health condition.

We, NSS volunteers engaged with village people in a friendly manner and ask about their health conditions and told them to come and check their health status through free health checkup camp.

The camp witnessed active participation from a significant number of villagers, including men, women, and children, reflecting the community's interest in prioritizing their health and well-being.

The activities that are performed in Free health checkup camp is as follows:

Medical Examination: Trained medical professionals conducted comprehensive health checkups for individuals, focusing on measuring blood pressure, blood sugar levels, and assessing eyesight.

Health Education: Educational sessions were conducted to raise awareness about the importance of monitoring BP, blood sugar levels, and maintaining good eye health. Information on lifestyle modifications and preventive measures was also provided.

Distribution of Medicines: Individuals diagnosed with hypertension, diabetes, or vision problems were provided with necessary medications and supplements, along with guidance on proper usage.

We may Conclude that the Health Checkup Camp organized by NSS in Vinjanampadu Village played a crucial role in promoting community health by offering vital health screenings and educational resources. Through early detection, intervention, and empowerment, the camp contributed to enhancing the overall health outcomes of the villagers. Continued efforts in organizing such camps are essential for fostering a culture of preventive care and ensuring the well-being of the community.

DAY-5-REPORT

Name of Event: Awareness On Employability Skills For Schools Students

Date of Event: 05-02-2024

Place of Event: Vinjanampadu

On 05-02-2024 The National Service Scheme (NSS) organized a campaign in Zilla Parashat highschool Vinjanampadu took a proactive step to enhance the employability of its students by launching a dedicated program focused on developing essential skills required for success in the professional arena.

The core objective of this NSS initiative was to bridge the gap between academic knowledge and practical employability skills, ensuring that students are well-prepared for the challenges of the workforce. NSS volunteers collaborated with school faculty to design a comprehensive Employability Skills Program tailored to the specific needs of students. Covering communication skills, teamwork, leadership, problem-solving, and time management.

The employability skills program was seamlessly integrated into NSS activities, ensuring that students received a well-rounded education that goes beyond academics. NSS volunteers played a pivotal role in facilitating improving skills and mentoring students. Their active involvement strengthened the connection between the NSS initiative. NSS volunteers observed a noticeable increase in students' confidence levels, particularly in professional settings.

NSS encouraged students to actively participate in village community service projects, fostering a sense of responsibility and teamwork, which is valuable employability skills. The NSS initiative at ZPHS School successfully integrated employability skills development into the school's broader educational framework. By combining academic excellence with practical skills, the school has taken a commendable step towards preparing students for successful careers and instilling in them a sense of social responsibility. The NSS initiative serves as a model for holistic education that goes beyond traditional classroom learning.

DAY-6-REPORT

Name of Event: Seasonal Disease Awareness Program & Women Empowerment

Date of Event: 06-02-2024

Place of Event: Vinjanampadu

On 06-02-2024, National Service Scheme (NSS) has organized a campaign in "Vinjanampadu" village in order to bring awareness to the villagers on "SEASONAL DISEASES". As the villagers are been facing different kinds of problems in different seasons. NSS team had guided them the necessary precautions to be taken and to be aware among themselves without any health hazards.

The main goal for the NSS team is raise awareness for the people about the different preventive measures that should be taken and explained the steps to be followed for not attaching of the diseases.

We, NSS volunteers engaged with village people in a friendly manner and explained them in a clear way that they should take care of their health in a proper way and should follow some measures like vaccination, good hygiene practices avoiding close contact with sick individuals etc....and also explained clearly about the safety precautions to be followed and empowered the villagers with knowledge on early symptoms and when to seek medical assistance and taught them the steps to manage allergies which can help to reduce the risk of seasonal diseases.

NSS volunteers have been interacted to the villagers and explained about the seasonal diseases such as Dengue fever, Malaria, Chikungunya and Common cold. The major impact has been increased the awareness levels among villagers regarding the symptoms and preventive measures of seasonal diseases which created a positive behavioural change in their hygiene practices and empowered the community members to take proactive measures in safeguarding their health and that of their families.

National Service Scheme (NSS) Cell
JNTUK- SPECIAL CAMP | A.Y:2023-2024

Unit Code: 90214715

We, NSS team had given awareness on some of the diseases by which the village people are facing a lot of problems

1. **Influenza (Flu):** In temperate regions, flu season typically occurs during the fall and winter months. The flu virus thrives in colder temperatures and can spread easily in indoor environments where people are in close contact.
2. **Common Cold:** Like the flu, the common cold is more prevalent during the colder months. Rhinoviruses, which cause the majority of colds, spread more easily in lower temperatures.
3. **Seasonal Allergies:** Allergic rhinitis, commonly known as hay fever, is often triggered by pollen from trees, grasses, and weeds. Pollen levels tend to be higher in the spring and fall, leading to increased allergy symptoms during these seasons.
4. **Respiratory Syncytial Virus (RSV):** RSV infections, which can cause severe respiratory illness in young children and older adults, often peak in the fall and winter months.
5. **Norovirus:** This highly contagious virus, which causes gastrointestinal illness, tends to peak during the winter months. Cold weather may encourage people to stay indoors and in close contact with others, facilitating the spread of the virus.
6. **Dengue Fever:** Dengue fever is more common in tropical and subtropical regions, where it tends to peak during the rainy season when mosquito populations are higher.

We may conclude that the Seasonal Diseases Awareness Campaign which had been undertaken by the NSS team has played a vital role in equipping the villagers with knowledge and resources to combat prevalent health challenges. Moving forward, sustained efforts and community engagement will be essential in ensuring a healthier and resilient village population.

On the same day afternoon National Service Scheme (NSS) has organized a campaign in "Vinjanampadu" village in order to bring awareness to the villagers on women empowerment

They emphasized the importance of providing equal opportunities for women in education, employment, and decision-making roles. Many villagers highlighted the significant contributions women make to their families and communities and stressed the need to recognize and value their efforts. They discussed various ways to empower women, including providing access to skill development programs, promoting entrepreneurship, and ensuring their participation in local governance. Overall, the villagers conveyed a collective commitment to promoting gender equality and empowering women to lead fulfilling and dignified lives.

DAY-7-REPORT

Name of Event: Voter Education & Rally

Date of Event: 07-02-2024

Place of Event: Vinjanampadu

On 07-02-2024 The National Service Scheme (NSS) organized a comprehensive voter education campaign in vinjanampadu with the aim of fostering civic awareness and empowering residents with the knowledge and skills necessary for active participation in the democratic process.

The primary objective of the campaign was to educate villagers on the importance of voting, electoral processes, and their rights and responsibilities as voters. The NSS team aimed to enhance civic engagement and promote a well-informed and participative community the campaign was meticulously planned, involving collaboration between NSS volunteers, local authorities, and educational institutions. The planning phase included the identification of key areas for focus, development of educational materials, and coordination with relevant village higher officials.

NSS volunteers conducted interaction on the electoral process, emphasizing voter registration, polling procedures, and the significance of exercising one's right to vote. Informative information throughout the village to serve as quick references on voting procedures, election dates, and relevant contact information. NSS volunteers engaged in door-to-door visits to address individual queries, provide information, and encourage voter registration.

After that during the concluding ceremony of the NSS camp, participants gathered to reflect on their experiences and celebrate their achievements. The Panchayati Secretary Y Siva Prasad garu as a guest of honor, presided over the event and distributed certificates to the volunteers and NSS Program Officer. In his address, he commended the dedication and hard work of the NSS volunteers in serving the community. He emphasized the importance of community engagement and encouraged the volunteers to continue their efforts in making a positive impact. The certificate distribution served as recognition of the volunteers' commitment to service and provided motivation for their future endeavors. The event concluded with expressions of gratitude from both the organizers and participants, highlighting the bonds forged and the lessons learned during the camp.
