Department of Computer Science and Engineering

A Three Days Workshop
On
MEAN Stack/Cognitive/IOT

Date: 29 November – 01 December, 2018
Time: 10:00 AM to 5:20 PM
Venue: Seminar Hall and Lab 2
Resource Person: Team from Miracle Software Systems
Event Description:

Four experts from Miracle Software Systems, Udaya Nandipati (Cognitive - Lead Researcher), Pavani Gedala (MEAN stack developer), Krishna Reddy Arikatla(IoT Research Associate), Seshagiri(MEAN stack developer) started the workshop with MEAN stack. They explained Mongo DB, Express.j, Angular js, Node js technologies in brief at the morning session and practiced with a few example applications at the afternoon session.

On day 2, the session starts with Cognitive technology, one of the mentors had explained the technology with real time example by taking a free resource of IBM Watson Assistant and they have shown how the predefined system activities will respond to user whenever they asked for help.

Day 3 started with Internet Of Things concept. Experts have explained the concept with an example, stimulator logistics, that is, how the data can be passed with sensors and how it is accessed by the user.

At the end of session the resource persons are felicitated by the head of the department.
