

## KKR & KSR INSTITUTE OF TECHNOLOGY & SCIENCES

### EEE DEPARTMENT

#### IV B.TECH- PROJECT BATCHES(2010-2014)

| Batch No | ROLL NO    | GUIDE                  | TITLE   |
|----------|------------|------------------------|---|
| 1        | 10JR1A0223 | Prof.T.Srinivasa rao   | Open hardware closed loop control of Induction motor.   |
|          | 10JR1A0230 |                        |   |
|          | 10JR1A0224 |                        |   |
|          | 10JR1A0226 |                        |   |
| 2        | 10JR1A0213 | Ms.V.Sumu deepthi      | Performance of PI and Artificial neural network based unified power quality conditioner.          |
|          | 10JR1A0217 |                        |   |
|          | 10JR1A0251 |                        |   |
|          | 11JR5A0207 |                        |   |
| 3        | 10JR1A0243 | Ms.M.Krishna Chaitanya | A new stage topology for renewable energy system  |
|          | 10JR1A0255 |                        |   |
|          | 10JR1A0214 |                        |   |
|          | 10JR1A0257 |                        |   |
| 4        | 10JR1A0239 | Prof.T.Srinivasa rao   | Open hardware closed loop control of DC motor.  |
|          | 10JR1A0219 |                        |   |
|          | 10JR1A0220 |                        |   |
|          | 10JR1A0252 |                        |   |
| 5        | 10JR1A0229 | Ms.M.Krishna Chaitanya | Multilevel inverter fed with 7 level sinusoidal PWM to reduce total harmonic distortion.          |
|          | 10JR1A0221 |                        |   |
|          | 10JR1A0228 |                        |   |
|          | 10JR1A0246 |                        |   |
| 6        | 10JR1A0235 | Mr. D.Subbarao         | Hysterisis control of an unified power quality conditonner .                                      |
|          | 10JR1A0236 |                        |   |
|          | 10JR1A0227 |                        |   |
|          | 10JR1A0234 |                        |   |
| 7        | 10JR1A0247 | Mr.G.G. Raja Sekhar    | Single phase to three phase drive system using two parallel single phase rectifiers.              |
|          | 10JR1A0245 |                        |   |
|          | 10JR1A0238 |                        |   |
|          | 10JR1A0254 |                        |   |
|          | 10JR1A0248 |                        |   |
| 8        | 11JR5A0209 | Mr. K.RaviKumar        | Torque ripple minimization in direct torque control of Induction motor using five level inverter. |
|          | 11JR5A0208 |                        |   |
|          | 11JR5A0205 |                        |   |
|          | 10JR1A0256 |                        |   |
|          | 11JR5A0202 |                        |   |
| 9        | 10JR1A0242 | Mr. M. Praveen         | A new SEPIC converter combined with non isolated high step up converter.                          |
|          | 10JR1A0237 |                        |   |
|          | 10JR1A0225 |                        |   |
|          | 10JR1A0241 |                        |   |

|    |                   |                       |  |
|----|-------------------|-----------------------|--|
| 10 | <b>10JR1A0222</b> | Mr. K.Sarith Bhusahan | Digital control stratagey for asymetric cascaded multilevel inverter                         |
|    | <b>11JR5A0201</b> |                       |  |
|    | <b>10JR1A0215</b> |                       |  |
|    | <b>10JR1A0258</b> |                       |  |
| 11 | <b>10JR1A0206</b> | Mr. M.Nagaraju        | A novel approach to improved distribution system performance using SAPF.                     |
|    | <b>10JR1A0212</b> |                       |  |
|    | <b>10JR1A0249</b> |                       |  |
|    | <b>10JR1A0232</b> |                       |  |
| 12 | <b>10JR1A0204</b> | Mr. K.Sarith Bhusahan | New AC-DC converter using bridgeless SEPIC   |
|    | <b>10JR1A0250</b> |                       |  |
|    | <b>10JR1A0210</b> |                       |  |
|    | <b>10JR1A0253</b> |                       |  |
| 13 | <b>10JR1A0205</b> | Mr. M. Praveen        | Power Qulaity improvement in wind generation using STATCOM                                   |
|    | <b>10JR1A0208</b> |                       |  |
|    | <b>10JR1A0240</b> |                       |  |
|    | <b>11JR5A0206</b> |                       |  |
| 14 | <b>10JR1A0207</b> | Ms.K.Sneha            | A new cascaded multilevel inverter with reduced number of switches apply to induction motor. |
|    | <b>10JR1A0202</b> |                       |  |
|    | <b>10JR1A0218</b> |                       |  |
|    | <b>10JR1A0233</b> |                       |  |
| 15 | <b>10JR1A0201</b> | Mr.A.V.G.A.Marthanda  | Direct torque control of Induction motor using space vector modulation.                      |
|    | <b>10JR1A0209</b> |                       |  |
|    | <b>11JR5A0204</b> |                       |  |
|    | <b>11JR5A0203</b> |                       |  |
| 16 | <b>10JR1A0203</b> | Mr.A.V.G.A.Marthanda  | Input powerfactor correction for non - linear loads  |
|    | <b>10JR1A0231</b> |                       |  |
|    | <b>10JR1A0211</b> |                       |  |
|    | <b>10JR1A0244</b> |                       |  |
