36 Hours Hackathon on Full Stack Development

1. Objective of the Event:

The objective of a 36-hour hackathon on full stack development is to challenge participants to quickly design, develop, and deploy a full stack application within a limited time frame. It aims to test participants' skills, teamwork, creativity, and problem-solving abilities under pressure. These Bring together individuals with diverse backgrounds and skill sets to collaborate, share knowledge, and work as a team to develop innovative solutions.

The objective of a hackathon program on full stack development is to allow participants to collaborate, innovate, and showcase their skills by creating a fullstack application within a defined time frame. It encourages learning, creativity, problem-solving, and teamwork in a fast-paced and competitive environment. Ultimately, the hackathon can help students gain practical knowledge, improve their coding abilities, and foster a culture of continuous learning and growth in the field of full-stack development.

2. About the Make Skilled:

Make Skilled is an OTT platform for students, learners, educators and other stake holders, through this platform the team of Make Skilled is bringing lot of skill oriented courses to empower students on latest cutting edge technologies.

Mr. Madhu Parvathaneni, CEO, Make Skilled is in the market since 2010 and created a product 'Mad Makerspace' which is essential today because engineers are problem

solvers. We always compete with our competitors with initiatives such as Learn in Campus, Innovate in Campus, and Start in Campus. The Make Skilled intention is to inculcate innovation in campus so that people own it as a culture. Wherever Innovation excel, opportunities overflows.
