Dear Prof. Ramesh,

In M.Tech Data Science - first semester,

The course **Statistical Foundations for DataScience** is much more important than **Advanced Data Structures**.

Therefore, **Statistical Foundations for DataScience** can be a Core Course. **Advanced Data Structures** can be an elective course. You can see the possibility to swap them. This change is easy to incorporate.

Even for M.Tech ML, it is good to have Mathematics for Machine Learning as a core course.

Go Ahead with the necessary changes.

Regards,
Rama.
