

ENTREPRENEURIAL ACTIVITIES CONDUCTED IN ACADEMIC YEAR (2024-25)

FOOPLE INDUSTRIAL VISIT

Students visited Fopple Drone Private Limited to gain insights into drone technology and its industrial applications. The session covered drone manufacturing, precision agriculture, and technological advancements. Experts shared real-world applications, innovation strategies, and future prospects. The visit provided valuable exposure to cutting-edge technology and entrepreneurship.

Fopple Industrial Visit(28,29 June 2024)

E-QUEST

The two-day workshop engaged participants in entrepreneurship through activities like **Deal Dash**, **Vision Draft**, and **QuizWhiz**, fostering creativity and problem-solving. **Mahan Sir** shared insights on entrepreneurial patience, inspiring attendees. The top six teams advanced to **PitchPrep**, presenting business models and answering judges' questions. The event concluded with the announcement of winners, celebrating innovation and teamwork.

E-Quest(25th & 26th of September,2024)

E-MERGE 2.0

Learn sustainable business strategies from industry leaders, balancing profit with social and environmental impact. Engage with E-cell experts on fostering entrepreneurship through insights and success stories. Network in a dynamic arena with games, exhibitions, and food stalls. Compete in the **Boardroom Competition** for a chance to win from a ₹50,000 prize pool.

E-MERGE 2.0 (20-10-2024)

Jindal Waste to Energy Plant Industrial Visit

The visit to **Jindal Power Plant** offered insights into energy production and industrial operations. Participants learned about advanced technologies, sustainability measures, and power management. Experts guided them through key processes, including coal-based and renewable energy integration. The experience enriched their understanding of efficient power generation.
