Approved by AICTE, New Delhi and Permanent Affiliation from JNTUK, Kakinada  
Accredited with "A" Grade by NAAC & NBA Accreditation Status for 4 UG (CSE, ECE, EEE, ME) Programs

**THREE DAYS HACKTHON  
ON**

**FEB 19-02-23 TO 21-02-23 By**

**Mr.Gopi Krishna Ravikanthan Founder CEO, APIR Square, Vijayawada**

**1. Objective of the Event:**

A hackathon, also known as a codefest, is a social coding event that brings computer programmers and other interested people together to improve upon or build a new software program. One team with a single set of resources cannot successfully run a hackathon. The organization must make various resources available, including: Marketing for planning and outreach. Product Management for product and industry-specific insight. The first and most important hackathon skill you'll need is problem analysis. A successful hackathon team must be able to identify the problem they're trying to solve, break it down into manageable parts, and develop a plan of attack. This skill is essential for any successful hackathon team.

**2. Date & Venue of the Event:**

The event is organized in KKR & KSR Institute of Technology and Sciences, Vinjanampadu, Guntur, Andhra Pradesh in Seminar hall from 8.00 AM to 5:00 PM. FROM **19-02-23 TO 21-02-23 FEB 2023.**

**3. Recourse Person Name and Address:** Mr.Gopi Krishna Ravikanthan Founder CEO, APIR Square, Vijayawada.

**4 About APIR Square, Vijayawada:** This institute Enabling automation and robotics for ease of doing things from countryside to worldwide using core engineering expertise, customer centric focus, deep marketing research and service strategies.

5 No. of Participants: 56

## 6. Event Photographs:

## 7. Benefits in terms of learning/Skill/Knowledge obtained.

Hackathons are a collaborative environment where participants can work together in teams to build something greater than they could individually. This fosters teamwork, communication, and

problem-solving skills. Support a meaningful cause. The goal of a hackathon is to create functioning software or hardware by the end of the event. Hackathons tend to have a specific focus, which can include the programming language used, the operating system, an application, an API, or the subject and the demographic group of the programmers. In other cases, there is no restriction on the type of software being created or the design of the new system.

In addition to creating functional software or hardware, hackathons can help participants develop skills like problem solving, critical thinking, creativity, team work, communication and time management. Hackathons can also lead to formation of new companies, finding innovative solutions to real-world problems, or building a community around particular technology or cause.

As part of a continuing improvement process, our college appreciates suggestions and inputs regarding the institution. We request you to sincerely answer these questions under assurance of complete confidentiality. Your interest in making our institution better is greatly appreciated. For each item please indicate your level of satisfaction with the following statement by choosing score between 1 and 5.(5-Excellent 4-Very good 3-Good 2-Satisfactory 1-Poor)

SL.NO	Particulars	Yes/No	Excellent (5)	Very Good (4)	Good (3)	Satisfactory (2)	Poor (1)
1	Your perception of his/her knowledge		✓				
2	Communication skills			✓			
3	Do you feel the Hackathon was your curriculum related	Yes					
4	Do you feel Hackathon was related to advanced technology	Yes					
5	Ability to make the subject relevant to profession and society	Yes					
6	Are you willing to participate in more no of sessions	Yes					
7	Do you feel the Hackathon was interesting	Yes					
8	How you feel the time schedule of instructor			✓			
9	Is it recommend to other conservators	Yes					
10	Overall opinoin		✓				

Any other suggestions:
